Certificate of Simulation Accuracy

Certificate ID

818bfc6914fa4377

Exact result: no approximation, only shot noise applies

ENGINE

exact.cpu

METHOD

exact statevector

SHOTS

1000

MEASURED OUTCOMES (top)

000	514 shots
111	486 shots

HOW THIS CERTIFICATE WAS PRODUCED

• This engine performs no approximation of the quantum state: the reported outcome counts reflect only statistical shot noise around the exact probability distribution, the same noise any real sampling process would show.
